

NOTICE TO MARINERS

2021 Geophysical and Geotechnical surveys for Kitty Hawk Offshore Wind Rev 01 - Issued: 2021-09-10

Mariners are advised that survey vessels and equipment will be used in the proposed offshore Export Cable Routes and Kitty Hawk Offshore Wind lease area from the second week in September 2021 and for approximately 60 days forward.

The surveys will be performed by Ocean Infinity America and MMT on behalf of Avangrid Renewables using survey vessels Deep Helder and Island Champion.

Two smaller vessels will be working adjacent to the Island Champion. These are remotely operated and steered from the mother vessel Island Champion. For further information on the remotely operated vessels please contact the Island Champion.

Vessel: DEEP HELDER
Call sign: PBYU
IMO: 9690872
Owner: Seamar
GSM: +31 61 90 06 277
Email: bridge.helder@seamar.nl
VHF: 13 & 16

Vessel: Island Champion
Call sign: C6BW2
IMO: 9366598
Owner: Island Offshore
GSM: +44 79 20 53 96 91
Email: bridge@champion.islandoffshore.com
VHF: 13 & 16

During the survey the vessels will be deploying subsurface survey equipment along the survey area and will be restricted in their ability to manoeuvre. Approaching vessels are requested to pass at a safe speed and a distance of 0.5 nautical miles.

NOTICE TO MARINERS

Project Description

Starting 17th September 2021 - The Geophysical survey will be conducted by Ocean Infinity/MMT vessels Deep Helder and Island Champion on behalf of Avangrid Renewables.

Mariners are advised to keep a safety clearance to the vessel of no less than 0.5 nautical miles.

Port of Operation

Deep Helder will be mobilised in New York on the 17th September 2021 and will operate from Norfolk, Virginia.

Island Champion will mobilise in Norfolk, Virginia, on the 17^h September.

Key Contact Details:
