

NOTICE TO MARINERS

Kitty Hawk Offshore Wind, North Carolina

Issued 20th July 2020: Revision 00

1. INTRODUCTION

Please be advised that Horizon Geosciences will be performing geotechnical investigation on behalf of Avangrid Renewables LLC on the proposed **Kitty Hawk Offshore Wind Farm**, the location of which is highlighted in **Figure 1**.

All offshore operations during this survey phase will be conducted and managed by: Horizon Geosciences Limited, 1 Queen Victoria Street, Bristol, BS2 0QR, United Kingdom.

2. AREA OF OPERATIONS

Project location and field layout are given below.

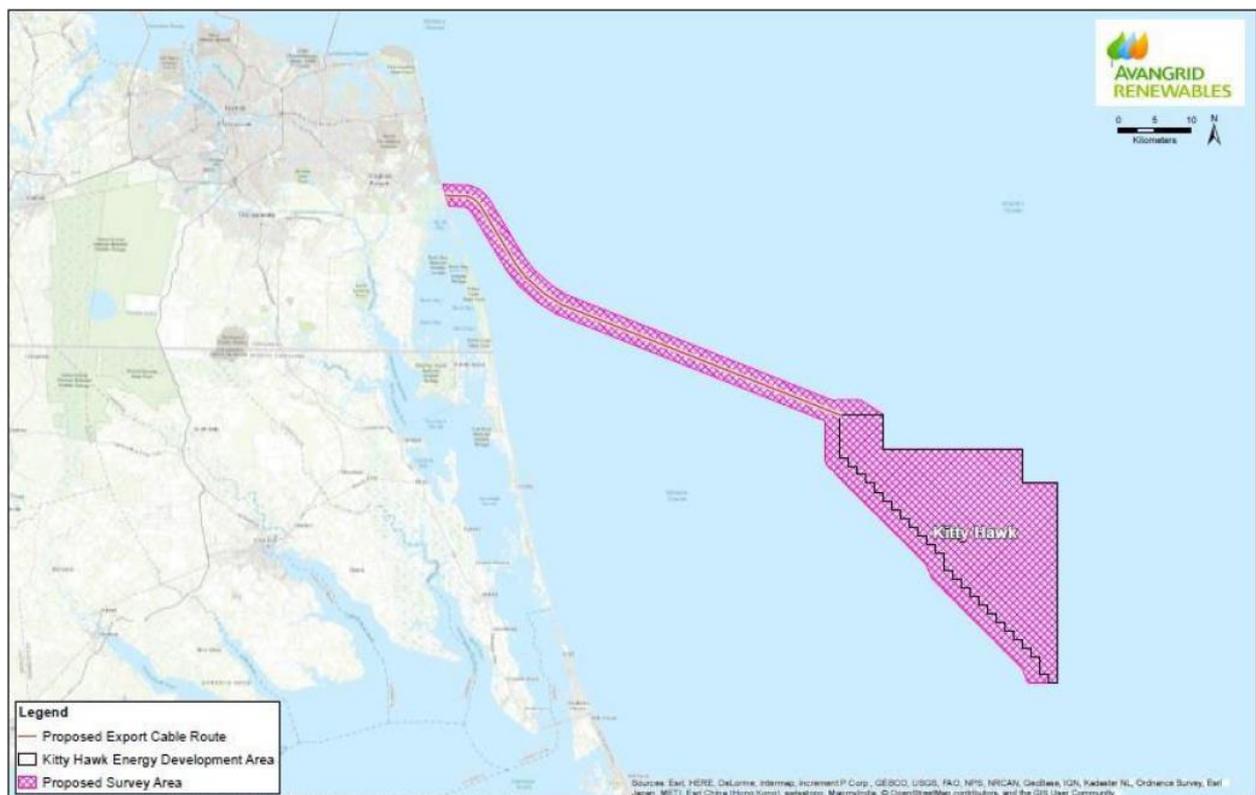

FIGURE 1: LOCATION OF OFFSHORE GEOTECHNICAL WORKS

3. INVESTIGATION

The site investigation works consist of geotechnical borehole drilling and sampling. The works are being undertaken by the vessel Kommandor Susan (**Figure 2**), which is expected to commence operations within the area from 1st of August 2020 and be on site for approximately 6 weeks.

During the geotechnical works the vessel will be operating a drill rig and all vessels are requested to remain at least 500 m clear.

The vessel will be displaying the relevant RAM lights and displays during periods of restricted manoeuvrability as well as adhering to the International Regulations for the Prevention of Collisions at Sea (COLREGS) and all licencing requirements.

Operations with the Kommandor Susan will be conducted on a 24-hour basis.

4. SURVEY VESSEL – KOMMANDOR SUSAN
